CO populations:

Durango – approx. 23,000 people

Glacier Club – approx. 525 people

Both systems are still operational and providing water from storage or other sources as of my last update from CDPHE.

Sarah:

We were asked what the population is of the DW systems that are closed as a result of the Gold King Mine release. Do you have this information and, if not, can you get it?

Thanks,

Laura Jenkins
